

# TIRTH PATEL

Etobicoke, ON | (647) 916-1311 | tp131101@gmail.com | github.com/Tirthpatel13 | pateltirth.vercel.app

## Summary

Full-stack application developer graduating May 2025 with hands-on experience designing, coding, testing, and deploying web applications using React, Angular, Node.js, Java, and Python. Proven ability to troubleshoot complex issues and deliver across the full SDLC in Agile/Scrum environments. Currently pursuing the IBM AI Developer Professional Certificate; eager to grow into cloud certifications (AWS, Azure) and deliver innovative client solutions at IBM Consulting.

## Technical Skills

**Frontend:** React, React Native (concepts), Angular, TypeScript (concepts), JavaScript, HTML/CSS, Tailwind CSS, Bootstrap

**Backend:** Java, Spring Boot, Node.js, Express.js, Python, REST APIs, Microservices, MVC

**Databases & Source Control:** MongoDB, MySQL, SQLite, SQL, Git/GitHub, SVN (concepts)

**Cloud & DevOps:** AWS EC2, Docker, Kubernetes, Maven, CI/CD Pipelines

**SDLC & Testing:** Agile/Scrum, JUnit, TDD, MVVM, Clean Architecture, OOP, Design Patterns, JIRA

**Mobile:** Android (AOSP concepts), iOS (concepts)

## Education & Certifications

### BSc Computer Science — Specialized Honours

May 2025

*York University, Lassonde School of Engineering · Toronto, ON*

*Relevant Coursework:* Data Structures & Algorithms, Software Design, Operating Systems, Database Systems, Web Development

### IBM AI Developer Professional Certificate

2025

*IBM / Coursera · In Progress*

*Topics:* Generative AI, Prompt Engineering, LLM APIs, AI-Powered Application Development

## Projects

### Job Finder — Full-Stack Web Application

*github.com/Tirthpatel13/JobFresher · React · Java Spring Boot · MongoDB · REST APIs · Node.js*

- Designed, coded, tested, and deployed a full-stack application with a React frontend and Java Spring Boot backend, implementing RESTful APIs for job listing retrieval, filtering, and user management.
- Applied Clean Architecture and MVVM design patterns; built JUnit-tested service layers with structured logging to support CI/CD integration and long-term maintainability.
- Engineered a MongoDB data layer optimised for low-latency document retrieval with end-to-end integration across the full application stack.

### Renew Cars — Enterprise E-Commerce Platform

*github.com/Tirthpatel13/EECS4413 · Java · Angular · JSP/Servlets · REST APIs · SQLite · AWS EC2*

- Delivered a full-stack enterprise platform using Java Servlet middleware and RESTful services, with Angular UI dashboards for order tracking and inventory management.
- Troubleshooted and resolved integration issues across frontend and backend layers throughout three Agile Scrum sprints, tracked in JIRA with Git-based version control.
- Deployed to AWS EC2 with CI/CD pipeline integration, applying secure coding practices including input validation and API key protection across all endpoints.

### Codebreaker & Portfolio

*github.com/Tirthpatel13/CodeBreakerGame · pateltirth.vercel.app · Node.js · Express.js · React · Tailwind CSS*

- Built and tested a stateful Node.js/Express REST API application applying OOP design patterns and structured error handling to ensure reliability and debuggability.
- Designed and deployed a production-grade React/Tailwind CSS portfolio frontend with a Node.js backend, demonstrating proficiency in modern JavaScript frameworks and component-based architecture.

## Experience

### OMNI Department Manager

Nov 2025 — Present

*Walmart Canada · Etobicoke, ON*

- Led cross-functional team operations using Agile principles for task prioritisation and iterative process improvement, consistently meeting performance targets in a high-volume environment.
- Identified and implemented workflow process improvements, applying analytical problem-solving to reduce inefficiencies and improve operational reliability.

### OMNI Associate

Feb 2022 — Nov 2025

*Walmart Canada · Vaughan, ON*

- Contributed to workflow optimisation initiatives that improved order accuracy and throughput in a fast-paced, high-volume environment.
